### Alaska Order Pioneers to Have Igloo Here

The meeting of the '87 Pioneers that will take place at the Odd Fellows' hall Tuesday evening, will decide, among other things, whether or not the organization will elect to enter the Alaska Order of Pioneers.

The latter organization has offered to admit them to their order and to affiliate with them. If it shall be determined to unite with the larger organization, the Juneauites '87 class will have to determine the manner and details of the union.

The '87 Pioneer is comprised of those who came to Alaska not later than the year 1887. Most of the members are early settlers of Juneau, though there are a few whose first Alaska residence was in other parts of the territory.

The Alaska Order of Pioneers originated as the Yukon Order of Pioneers in Fortymile in the eighties. In 1893 Circle was struck and the books went along with the stampeders and Circle City was made the headquarters of the order.

The Klondike strike took many of the old timers to Dawson and in 1897 Circle gave the Dawson lodge a charter. In 1898 Rampart was struck and another stampede followed. Rampart became the headquarters, all of the records having been carried along. Then came the Nome strike and the stampede of '99. Again the old timers hit the trail and carried the books along to the golden sands of Seward peninsula.

The Dawson lodge continued to

thrive and a lodge was instituted in Nome but before it got into working condition Fairbanks was struck and the old fellows hit the trail again but the books were left behind with Frank Aldrich.

The Dawson lodge finally was the only working unit of the order. Mr. Aldrich saw the necessity of making a distinctive Alaska society in order to preserve the records and early history of the country, including the different stampedes of the past century. The Alaska Order of Pioneers was therefore founded during the winter of 1906-7 and came into possession of the oldest records of this character in the territory. Igloo No. 1 was instituted in Nome and has a membership of 700; Candle No. 2 followed and has 135; St. Michael No. 3 has 50. These three Igloos ordered a Grand Igloo. Later Fairbanks Igloo No. 4 was organized taking in all the old Yukoners and has today nearly one thousand members. Ruby No. 5 is the newest Igloo and has a membership of 300.

Membership in the Alaska Order of Pioneers is limited to those who came to Alaska and maintained a bona fide residence in the territory prior to the beginning of the present century. It is affiliated with the Yukon Order of Pioneers, though they are independent of each other. Membership in the Yukon Order of Pioneers is limited to those who reached the Yukon watershed before the first railroad train reached Bennett.

### Arctic Brotherhood Has a New Grand Camp

The Grand Camp of the Arctic Brotherhood as constituted by outside conventions is obliterated should the action of last night's session of the Arctic Brotherhood convention held in Douglas be ratified by two-thirds of the subordinate camps.

For the time at least the convention has resolved itself into a Grand Camp and all of the offices have been declared vacant.

The election of new officers for the Grand Camp will take place tonight which will be the third day of the convention.

The main object of the meeting was brought before the body by the Shoup declaration offered as the work of a committee consisting of J. M. Tanner, A. G. Shoup and W. B. Stout on the motion of Elwood Bruner at the night session of the first day. The declaration is as follows:

"WHEREAS, The Arctic Brotherhood is a fraternal organization created to advance the interests of the great Northland and of those men who actually live in the silent places, and,

"WHEREAS, Former members who have left the North, have attempted by methods in direct violation of the laws and ritual of the Arctic Brotherhood to destroy its distinctive and fundamental characteristics by the establishment of camps beyond our boundary line, and,

"WHEREAS, The actions of the Grand Camp of this order held outside our jurisdiction and controlled by members who have become divorced from the subordinate camps, has tended for several years to encroach upon our constitution and laws, culminating in a bold and illegal usurpation of power by the Grand Camp of 1912

which unwarrantedly and wrongfully promulgated the repeal of the following parts of the Arctic Brotherhood Constitution, namely:

"Article 1, Sec. 2, which limits the jurisdiction of the order to territory north of 54 20 north latitude.

"Article V, Sec. 2, which forbids the establishment of any branches of the order outside its proper jurisdiction.

"Article XVIII, which provides for a referendum of all constitutional amendments to the subordinate camps for ratification."

"All of which was intended to remove the control of the Arctic Brotherhood to alien shores and has resulted in this convention of protest and independence, and,

"WHEREAS, By its disregard of the laws and the constitution of the order and by its abuses of powers and other actions the Grand Camp has ceased to be a part of the Arctic Brotherhood; It is therefore

RESOLVED, By the Arctic Brotherhood that: First—All offices of the Grand Camp of right ought to be, and the same are hereby declared vacant. Second—That this convention, by virtue of the power in it vested by the direct mandate of 16 subordinate camps, should reorganize the Grand Camp in conformation with the fundamental principles of the order; elect all necessary officers thereof; provide for future meetings of the Grand Camp, and, alter and amend the constitution—subject to ratification by two-thirds of the subordinate camps—for that purpose hereby declares itself the Grand Camp of the Arctic Brotherhood with all the powers and control of all property and moneys belonging to the same."

Elwood Bruner opposed the declaration on account of instructions from his camp as to revolutionary proceedings. Shoup added an amendment making ratifications of all actions of the convention on declaration necessary by two-thirds of subordinate camps.

J. M. Tanner said subordinate camps had already authorized action by sending delegates. A prolonged discussion followed and recess was taken for five minutes. On being called to order M. Katzenmeyer, of Wrangell, offered a substitute providing that the office of Grand Arctic Chief be declared vacant that all officers who were bona fide residents of the jurisdiction be entitled to hold their positions. The substitute was lost by a vote of 27 to 19.

The Shoup declaration which had partly been adopted was again taken up and passed by a vote of 33 to 14.

Elwood Bruner and E. B. Collins led the fight against the fight to oust the Grand Officers holding that they were complying with instructions from their subordinate camps. J. M. Tanner representing Skaway, St. Michael, Flat and Iditarod led the fight for immediate action. He was supported by W. B. Stout and the entire Haines delegation, by M. J. O'Connor, D. Smith Harris, and A. G. Shoup.

Collins and Bruner expect further instructions from their camps today and on such will depend their action at tonight's session.
